SUMMARY

A detail-oriented Information Technology graduate and AI developer with hands-on experience building production AI applications using Python, FastAPI, and LLM integration. Developed and deployed 5 solo AI projects including a resume analyzer, a RAG-based document Q&A system, a lead enrichment pipeline, and a sentiment analysis dashboard — all live and hosted on a self-managed Linux server with Docker, Caddy, and Cloudflare. Proficient in leveraging automation platforms including n8n and GHL to develop and optimize marketing-centric workflows that enhance efficiency, lead management, and campaign execution. Experienced in communicating with clients, coordinating with cross-functional teams, and managing multiple projects from concept to deployment. Eager to contribute to a professional team as an AI developer or automation engineer.

EDUCATION

Baccalaureate Degree: Bachelor of Science in Information Technology

University of Nueva Cáceres, Naga City, 2019 – 2026

WORK EXPERIENCE

Administrative Assistant (Student Assistant)

University of Nueva Caceres – Office of the Vice President for Administration, 2019–2021

- Provided daily administrative support, including file management, calendar coordination, inventory, communications, on-site venue preparations, and internal communications.
- Maintained organized records, assisted in scheduling meetings, and prepared office materials.
- Gained experience handling confidential documents and managing task priorities effectively.

Technical Support Associate

Relaytask, 2025

- Developed several workflow automations using n8n and GHL automations for executive use and centered in marketing operations, and assisted in the development of several Systems the Company Offers, such as SaaS programs and services catered to a niche market.
- Handled communications with outside sources and clients in user needs and services offered, and participated in meetings that spearheaded several projects in the market.
- Responsible for troubleshooting and maintenance of hardware and software used on-site.
- Assisted in backend development in several programs/systems that the company offers.

Website Designer/Developer

Relaytask, 2025

- Designed, assisted, and implemented several working websites under Relaytask in gaining views and popularity by making funnel websites to garner leads from social media and other sources.
- Developed websites using WordPress development and GHL, accompanied by the responsibility to troubleshoot errors and monitor page views and uptime.
- Handled implementing affiliate marketing with GHL on several websites.

PROJECTS

Solo AI Projects (all live and open-source):

1. AI Resume Analyzer – Python/FastAPI app that analyzes resumes against job descriptions using LLM integration. Live at resume.betamaxgroup.tech. GitHub: github.com/pioloavenido123-source/ai-resume-analyzer

2. AI Document Q&A (RAG) – Upload any PDF and ask questions with source citations. Uses sentence-transformers embeddings + vector search + deepseek-v4-flash. Live at docqa.betamaxgroup.tech. GitHub: github.com/pioloavenido123-source/ai-document-qa-rag

3. Lead Enrichment Pipeline – Enter a company website, AI extracts business intelligence (contacts, industry, tech stack, social links). Python/FastAPI + web scraping + LLM. Live at leads.betamaxgroup.tech. GitHub: github.com/pioloavenido123-source/ai-lead-enrichment-pipeline

4. Sentiment Analysis Dashboard – Paste reviews or feedback, AI classifies sentiment with charts and CSV export. Python/FastAPI + Chart.js + LLM. Live at sentiment.betamaxgroup.tech. GitHub: github.com/pioloavenido123-source/sentiment-analysis-dashboard

5. PioloBot Chatbot – AI chatbot embedded on portfolio website with conversation memory, session management, and natural language responses. Python + LLM. Live at piolo.betamaxgroup.tech. GitHub: github.com/pioloavenido123-source/piolo-portfolio

Collaborative Projects:

- Zimmy POS – Point-of-sale system for food businesses (React, Node.js, PostgreSQL)
- n8n Workflow Automations – Marketing-centric workflow automations using n8n and GHL at Relaytask
- Relay Task – Task management and HOA management platform
- Deskline.co – Web platform built with WordPress and GHL

SKILLS AND ABILITIES

Technical Skills

- **Programming Languages:** Python, JavaScript, C++, Java, PHP
- **AI/ML:** LLM Integration (Ollama, OpenAI-compatible APIs), Prompt Engineering, RAG (Retrieval-Augmented Generation), Embeddings & Vector Search, Sentiment Analysis
- **Backend Development:** FastAPI, Node.js, REST API design
- **Frontend Development:** HTML/CSS, React, Progressive Web Apps
- **Deployment & Infrastructure:** Docker, Caddy reverse proxy, Cloudflare, Linux server administration, Git
- **Automation:** n8n workflow automation, Go High Level (GHL) automation, lead enrichment pipelines
- **Web Development:** WordPress, GHL web funnels, SEO-focused landing pages
- **Data Analytics:** Data cleaning, sorting, analysis, and visualization
- **Database:** SQL
- **Tools:** Google Workspace, Canva, Git/GitHub

Personal Skills

- **Communication skills** (written and verbal) – Awarded English Immersive Environment; written letters addressed to various organizations and university officials
- **Leadership skills** – Spearheaded and assisted projects at the university and extracurricular events; facilitated as Project Manager on group thesis "Web-Based POS System for Local Cafe Shop in Naga City"
- **Project management** – Led a team developing a Progressive Web App for cafe business owners to streamline POS, administration, inventory management, and customer service
- **Good work ethic** – Respectful, accountable, strong time management balancing personal, academic, and professional responsibilities

TRAINING / CERTIFICATION / LICENSE

- ~~Claude Platform Course Authority~~ – LinkedIn Learning, 2026
- ~~Claude 101~~ – Anthropic, August 2026
- ~~Learning SQL Programming~~ – LinkedIn Learning, 2023
- Claude 101 – Anthropic, August 2026
- React Essential Training – LinkedIn Learning, 2025
- React: Building Progressive Web Apps (PWAs) – LinkedIn Learning, 2025
- Node.js Essential Training – LinkedIn Learning, 2025
- Administrative Professional Foundations – LinkedIn Learning, 2025
- Git Essential Training (2023) – LinkedIn Learning, 2025

AWARDS

- English for Immersive Environment (EIE) Department Representative – University of Nueva Cáceres, 2020–2021
- English for Immersive Environment (EIE) Student Assistant – University of Nueva Cáceres, 2020–2021

- Certificate of Recognition – Relaytask, 2025
