Barangay San Francisco, Magarao, Camarines Sur, 4403, Philippines

SUMMARY

A detail-oriented Information Technology graduate and AI developer with hands-on experience building and deploying AI applications using Python, FastAPI, and LLM integration. Developed and deployed 5 solo AI projects including a resume analyzer, a RAG-based document Q&A system, a lead enrichment pipeline, and a sentiment analysis dashboard. Hosted on a self-managed Linux server with Docker, Caddy, and Cloudflare. Proficient in leveraging automation tools including n8n and GHL to develop and optimize marketing-centric workflows that enhance efficiency and campaign execution. Experienced in communicating with clients, coordinating with cross-functional teams, and managing multiple projects from concept to deployment. Certified in Claude and the Anthropic platform. Seeking to contribute to a professional team as an AI developer or automation engineer.

EDUCATION

Baccalaureate Degree: Bachelor of Science in Information Technology

University of Nueva Cáceres, Naga City, 2019 - 2026

WORK EXPERIENCE

Administrative Assistant (Student Assistant)

University of Nueva Caceres · Office of the Vice President for Administration, 2019–2021

- Provided daily administrative support, including file management, calendar coordination, internal communications, on-site venue preparations, and office logistics.
- Maintained organized records, assisted in scheduling meetings, and prepared office materials.
- Gained experience handling confidential documents and managing task priorities effectively.

Technical Support Associate

Relaytask, 2025

- Developed several workflow automations using n8n and GHL automations for executive use and company operations, and assisted in the development of several systems the company offers, such as services catered to a niche market.
- Handled communications with outside sources and clients regarding user needs and services offered, leading meetings that spearheaded several projects in the market.
- Responsible for troubleshooting and maintenance of hardware and software used on-site.
- Assisted in backend development in several programs and systems that the company offers.

Website Designer/Developer

Relaytask, 2025

- Designed, assisted, and implemented several working websites under Relaytask in gaining visibility and making funnel websites to garner leads from social media and other sources.
- Developed websites using WordPress and GHL, accompanied by the responsibility to track and monitor page views and uptime.
- Handled implementing affiliate marketing with GHL on several websites.

PROJECTS

Solo AI Projects (all live and open-source):

- AI Resume Analyzer · Python/FastAPI app that analyzes resumes against job descriptions using LLM-powered analysis. Live at resume.betamaxgroup.tech. GitHub: github.com/pioloavenido123-source/ai-resume-analyzer
- AI Document Q&A (RAG) · Upload any PDF and ask questions with source citations. Uses sentence embeddings + vector search + deepseek-v4-flash. Live at docqa.betamaxgroup.tech. GitHub: github.com/pioloavenido123-source/ai-document-qa-rag
- Lead Enrichment Pipeline · Enter a company website, AI extracts business intelligence (contact info, social links). Python/FastAPI + web scraping + LLM. Live at leads.betamaxgroup.tech. GitHub: github.com/pioloavenido123-source/ai-lead-enrichment-pipeline
- Sentiment Analysis Dashboard · Paste reviews or feedback, AI classifies sentiment with charts. Python/FastAPI + Chart.js + LLM. Live at sentiment.betamaxgroup.tech. GitHub: github.com/pioloavenido123-source/sentiment-analysis-dashboard
- PioloBot Chatbot · AI chatbot embedded on portfolio website with conversation memory, session persistence, and natural language responses. Python + LLM. Live at piolo.betamaxgroup.tech. GitHub: github.com/pioloavenido123-source/piolo-portfolio

Collaborative Projects:

- Jimmy POS · Point-of-sale system for food businesses (React, Node.js, PostgreSQL)
- n8n Workflow Automations · Marketing-centric workflow automations using n8n and GHL at Relaytask

- Relay Task · Task management and HOA management platform
- Deskline.co · Web platform built with WordPress and GHL

SKILLS AND ABILITIES

Technical Skills

- Programming Languages: Python, JavaScript, C++, Java, PHP
- AI/ML: LLM Integration (Ollama, OpenAI-compatible APIs, Claude/Anthropic), Prompt Engineering, RAG (Retrieval-Augmented Generation), Embeddings & Vector Search, Sentiment Analysis
- Backend Development: FastAPI, Node.js, REST API design
- Frontend Development: HTML/CSS, React, Progressive Web Apps
- Deployment & Infrastructure: Docker, Caddy reverse proxy, Cloudflare, Linux server administration
- Automation: n8n workflow automation, Go High Level (GHL) automation, lead enrichment pipelines
- Web Development: WordPress, GHL web funnels, SEO-focused landing pages
- Data Analytics: Data cleaning, sorting, analysis, and visualization
- Database: SQL
- Tools: Google Workspace, Canva, Git/GitHub, Claude Code (CLI)

Personal Skills

- Communication skills (written and verbal) · Awarded English Immersive Environment; written communications to organizations and university officials
- Leadership skills · Spearheaded and assisted projects at the university and extracurricular activities; served as Manager on group thesis "Web-Based POS System for Local Cafe Shop in Naga City"
- Project management · Led a team developing a Progressive Web App for cafe business owners with features for sales tracking, inventory management, and customer service
- Good work ethic · Respectful, accountable, strong time management balancing personal, academic, and professional responsibilities

TRAINING / CERTIFICATION / LICENSE

- Claude 101 · Anthropic, August 2026
- Claude Code 101 · Anthropic, August 2026
- Claude Platform 101 · Anthropic, August 2026
- Introduction to Cybersecurity · Cisco, 19 Dec 2024
- Learning SQL Programming · LinkedIn Learning, 2023
- React Essential Training · LinkedIn Learning, 2025
- React: Building Progressive Web Apps (PWAs) · LinkedIn Learning, 2025
- Node.js Essential Training · LinkedIn Learning, 2025
- Administrative Professional Foundations · LinkedIn Learning, 2025
- Git Essential Training (2023) · LinkedIn Learning, 2025

AWARDS

- English for Immersive Environment (EIE) Department Representative · University of Nueva Cáceres
- English for Immersive Environment (EIE) Student Assistant · University of Nueva Cáceres, 2024
- Certificate of Recognition · Relaytask, 2025
